ARAKAKA GOLD PROJECT, GUYANA

- ◆ Regional scale project
- ◆ Highly prospective North West Guyana Shield Greenstone Belt
- ◆ Over 12km strike along major mineralised structural corridor
- ◆ Less than 5% of the +12km of the Arakaka Trend drill tested
- ◆ Multiple untested, high priority targets
- ◆ Underexplored and multiple saprolite pits
- ◆ Arakaka Trend one of the oldest and most prolific gold districts in Guiana Shield
- ◆ Mining friendly jurisdiction

Alicanto Minerals Limited (ASX:AQI) ("Alicanto" or "the Company") is pleased to advise that Chief Geologist, Marcus Harden, will be presenting an update on the Company's Arakaka Gold Project today at 2:10pm GMT at this year's London Mines and Money conference with the Alicanto's recent investor presentation release to the ASX 28 October 2014.

Mr Harden will expand on recent exploration success on the Arakaka Gold Project located in Guyana, where the Alicanto team has consolidated an extensive land position within a major gold district in Guyana that has little to no modern exploration across numerous small scale mines.

The Company would also like to invite investors to visit our exhibit located at Booth D19 while at the London Mines and Money conference to find out more about Alicanto Minerals Ltd.

Yours faithfully,

Travis Schwertfeger
Managing Director
